SUMMARY

A passionate frontend web developer with a keen interest in crafting seamless user experiences and intuitive interfaces. I'm currently diving deep into the world of MERN stack (MongoDB, Express.js, React, Node.js) to build robust and dynamic web applications. My journey in the tech world has been nothing short of exciting, and I thrive on the challenges that coding presents.

EXPERIENCE

Frontend Intern

Digital Billing Services

10/2023 - 11/2023

- Spreadheaded end-to-end developmtn of web applications using React.js, optimizing UI components for seamless user experiences and integrating efficiently with backend Apis.
- Collaborated closely with cross-functional teams to design, implement and manage UI components, demonstrating expertise in modern web development practices and a commitment to delivering polished solutions on time.

Web Developer Intern

Sync Interns

09/2023 - 10/2023

- Interned at Sync Interns, contributing to the development projects

PERSONAL PROJECT

Freelance Project Student Portal

Tech Stack : React JS, Node JS, Express JS, Mongo Db

- Developed a multi-user MERN stack web app with distinct portals for admin, students, supervisors, and committee members, enabling project requests, task management, and user administration.
- Implemented secure authentication, responsive design, and cloud deployment for an efficient and user- friendly experience.

Online Shopping Cart

Crafted a robust MERN shopping cart application, leveraging the Context API for efficient state management, ensuring scalability and flexibility while providing a seamless and intuitive user experience.

- Implemented a versatile admin interface allowing seamless addition, editing, and deletion of products, empowering administrators to manage inventory effortlessly.
- Developed a user-friendly customer interface enabling browsing, viewing, and convenient addition of products to the shopping cart, enhancing the overall shopping experience.
